

CHIAPPA[®] firearms

MAKING HISTORY
2017

Chiappa Firearms srl, Brescia, Italy

Chiappa Firearms USA, Ltd, Dayton, Ohio

It's through curiosity and love for challenges
that we've always mapped our path
at Chiappa Firearms.
There will always be another challenge
to take on and we'll not be afraid
to play the game.

President
Rino Chiappa

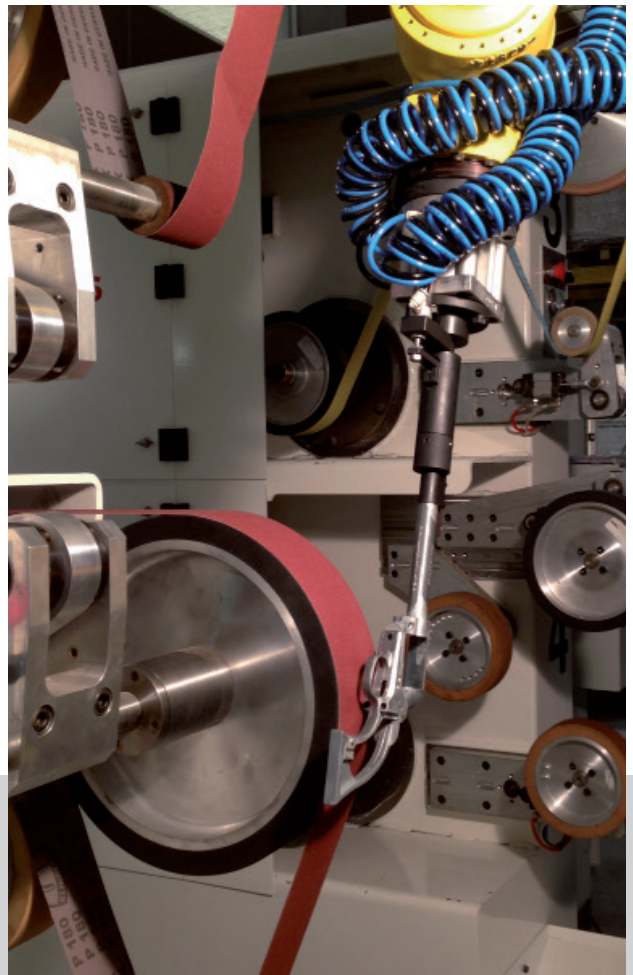

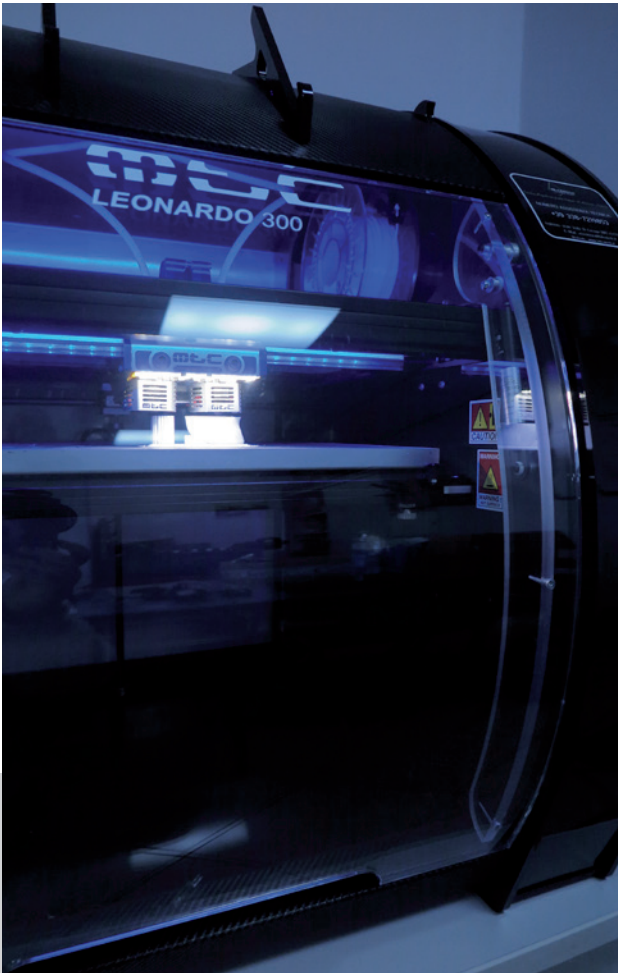

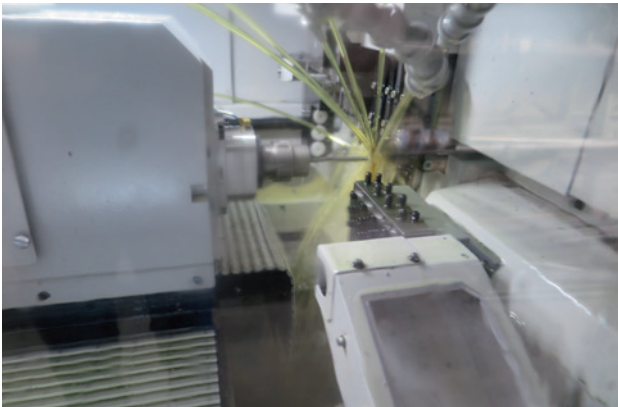

Company History

The history of the Chiappa Group began in 1958, when Ezechiele (Oscar) Chiappa opened his company and called it Armi Sport. Initially an artisanal workshop, the company has grown over the years to become an industrial group, still wholly owned by Chiappa family.

Company Present

CHIAPPA GROUP is made of separate divisions including Chiappa Firearms Srl. (main production – pistols, revolvers, rifles, shotguns, located Brescia, Italy), Chiappa Firearms Ltd. (main distribution company in USA, production, located Dayton, Ohio), Charles Daly (pistols, rifles, shotguns brand), FAS (air guns brand), Kimar (blank guns brand), Ares Distribution (main distribution company in Italy, Europe and rest of the world, located Forli, Italy), ACP (Laser Training System, located Brescia, Italy) and Costa (Metal surface treatment, located Brescia, Italy). The Chiappa Group manufactures a wide range of firearm models for many different market segments. Current models include replicas of American historic weapons and muzzleloaders, classic lever action shotguns and rifles, modern semi auto pistols and rifles, alarm guns, air guns and the most innovative revolver on the market, the Chiappa Rhino.

DISTRIBUTION

SIGNIFICANTLY LESS MUZZLE RISE
Lower bore axis than other revolvers
Barrel is directly in line with the shooters hand, wrist and arm, this results in almost no muzzle rise

COCKING LEVER AND COCKED HAMMER INDICATOR

Cocking lever – cocks the internal hammer for single action use. Can also be used to decock the internal hammer like a regular double action revolver

In 2" version cocking lever is also the rear sight

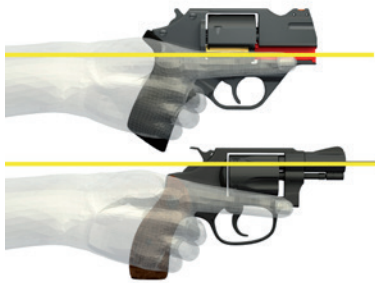

Cocked Hammer Indicator-Quickly know the cocked or uncocked condition of the internal hammer with just a glance or touch of the cocked hammer indicator

HEXAGON CYLINDER

Hexagonal Shaped Cylinder – Flat sides for the slimmest, easy to carry 6-shot .357 magnum revolver

Rimmed and Rimless Cartridge Capable - Cylinders available for 38spl/.357 as well as 9mm Luger and .40S&W

Precision Steel Alignment And Control Pins- Cylinder rotation controlled by precision machined steel pins pressed into the cylinder rather than the extractor like most revolvers. This guarantees positive and precision cylinder rotation every time

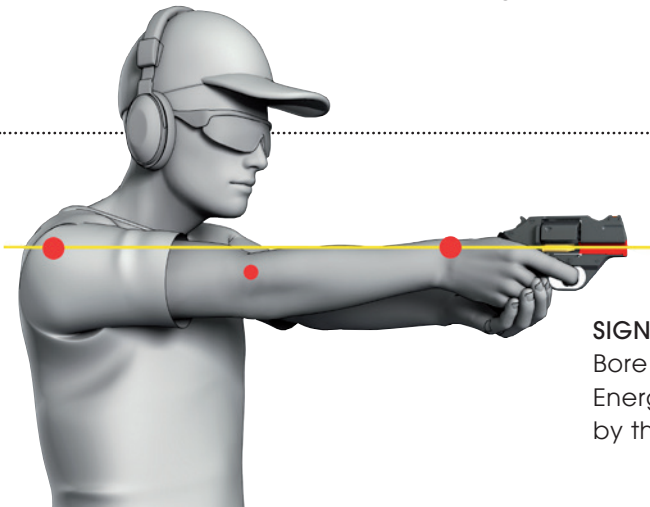

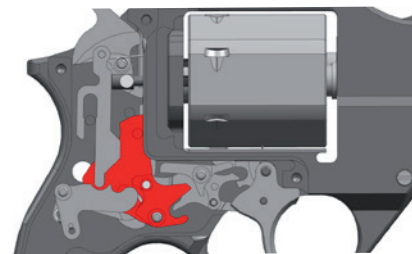

MORE NATURAL POINT OF AIM

Extended trigger finger naturally in-line with the Rhino barrel

Can practice point of aim with trigger finger

SAFE FIRING MECHANISM

Snag and drop resistant because hammer is inside Enclosed firing mechanism

SIGNIFICANT FELT RECOIL REDUCTION

Bore axis is in-line with the shooter's arm and wrist Energy is better absorbed and controlled by the whole arm

The White Rhino is the newest member of Chiappa Firearms' innovative line of Rhino revolvers. Featuring a 3" barrel, it also debuts a new and distinctive look. Cerakoted and then laser etched, the White Rhino's frame is reminiscent of actual rhino hide. The cylinder is matte black. The ergonomic, gray and black G10 laminate grip ties everything together and compliments the theme and colors of this unique and appealing handgun. The 3" barrel length is great for both carry as well as home defense.

The Charging Rhino represents a natural evolution of the legendary Chiappa Rhino revolver. Developed for competition shooting, the Charging Rhino was developed in collaboration with IPSC/ICORE shooters to significantly contribute to the winning combination of speed and accuracy!

Main Features:

- Double Action Only
- Chambered in 9x19mm
- Black frame with 6 round chrome cylinder
- No external hammer/cocking lever
- No cocking status indicator
- Tuned internal hammer for smoother action
- Lighter trigger pull at 7.7lbs/3kg

Ready for IPSC, ICORE, PIN SHOOTING
and other competition shooting

The 6" barrel models come with both rails on top and bottom to easily mount optics as well as lights or lasers. The snag resistant "hammer" is actually a cocking device because of the Rhino's innovative completely enclosed firing mechanism which can be fired either single or double action. A cocked indicator is clearly visible to indicate the internal hammer status. Another innovation is the hexagonal cylinder which keeps the revolver's width to a minimum. The 6" barrel models come with both rails on top and bottom to easily mount optics as well as lights or lasers.

SAA 1873

14

SAA 22-6 WOOD 4 3/4"

SAA 22-10 5 1/2"

SAA 22-6 ANTIQUE 4 3/4"

The single action 1873 is a timeless handgun and a symbol of the American west. The Chiappa SAA1873 series captures the spirit and allure of these fine revolvers. Chambered in easy to shoot, readily accessible rimfire cartridges the SAA1873 is an excellent single action revolver. Available in different barrel lengths, finishes and cartridges, these are perfect for plinking, target practicing and even small game hunting. Models with dual cylinders are available to change back and forth between .22lr and .22WMR. The SAA1873 is even available in the popular .17HMR!

STANDARD PISTOL

470.012
M9-22 10rd magazine

Perfect for training or just for shooting fun, the Chiappa M9-22 is an accurate replica of the current M9 U.S. Service pistol but chambered in .22lr. The weight and feel mimic the original, including the famous open slide design and the controls as the magazine release and slide mounted de-cocker. The Standard models come with either checkered black plastic grips or checkered wood grips. Both M9-22s feature a 5.2" barrel, weigh 2.3 lbs and come with two 10 round magazines.

The 1911 is one of America's favorite pistols. With Chiappa Firearms' 1911-22, this classic design can come with all of the features, comfort and appeal but chambered in the easy shooting inexpensive .22lr. These handguns are the same size and have the same controls as a genuine 1911. This makes the Chiappa 1911-22 perfect for serious practicing, target shooting or plinking. The 1911-22 is available in standard, compact, custom or two tone configurations. Each 1911-22 comes with two 10 round magazines.

LA322 TAKEDOWN

20

The lever action .22lr is an American classic. Chiappa continues this legacy by using modern technology and materials to produce the LA322. This beautiful rimfire is as attractive as it is functional. Accurate, quick handling and rapid shooting, the LA322 embodies all the qualities that Americans want in a lever action rifle. A 3/8" dovetail is machined into the top of the receiver so optics are easily added for small game hunting or plinking. Another coveted feature is the take down design letting the shooter easily and quickly separate the buttstock from the action for easy transport and storage. Chiappa's LA322 is available in various models to suit any need or desire.

This no nonsense lever action carbine is built for hard use and harsh environments. The matte hard chrome finish is attractive, durable and resists corrosion. Further adding performance and function, the stocks are coated with Chiappa's black soft touch coating. This makes the stock easier to grip and protection from the elements. Like all LA322s, Kodiak Cub takes down for easy transport or storage. The features make the LA322 Kodiak Cub perfect for trappers, small game hunters, or any outdoor situation calling for a portable, durable lever action carbine.

LITTLE BADGER 22

The Little Badger is the ultimate packable survival gun. Available in .22lr, .22WMR, 17HMR, 17 WSM this lightweight, ultra-compact, break-open rifle is designed to go anywhere at any time. When the action is opened and the gun folded, it measures a mere 17" overall length and stows neatly in an included pack/ case. An optional handle cleaning kit combination accessory screws into the bottom of the receiver. Compact length and weighing only 2.9lbs, the Little Badger can truly be taken and ready for use just about anywhere!

DOUBLE BADGER

24

This shotgun/rimfire combination gun is a great choice for hunting, survival or fun recreational shooting. Double Badger is available in 20ga/.22lr, to go along with the 410ga/.22lr and 410ga/.22WMR. The Double Badger has the look, feel and function of an over and under shotgun with an attractive wood buttstock and forend but with the versatility of a rimfire cartridge. Each barrel is selectively fired by its own trigger and controlled by a top tang safety that is easy to use quickly and reliably. The Double Badger comes with a Williams fiber optic ghost ring and front sight as well as a 3/8" dovetail rail for mounting optics. Designed for portability, pushing the trigger guard down allows the Double Badger to fold in half for a total overall length of 21.20" making storage and transport easy.

M6 RIFLE

The Chiappa M6 folding survival gun is perfect for outdoorsman, ranchers, pilots or anyone who needs a portable, rugged and reliable rifle/shotgun combination. Based on the original M6, Chiappa's improved version has updated features to meet the needs of today's shooters and is available in 12ga/.22lr, 12ga/.22WMR, 20ga/.22lr or 20ga/.22WMR combinations. All new models have interchangeable choke tubes for maximum versatility. Barrels can be fired quickly and selectively, each having its own trigger. The M1 carbine style rear sight and fiber optic front sight make aiming either barrel quick and accurate, even in low light. Receiver mounted Picatinny rails on the top and sides allow for mounting optics, lights, lasers or other accessories. The durable yet lightweight skeletonized metal buttstock surrounds a polypropylene closed cell foam insert specifically molded for the Chiappa M6. This foam insert is designed to hold three 12 gauge shells and five .22 rimfire cartridges so ammo is always available and ready. A cleaning kit that stores neatly in the stock is included. The M6 easily breaks open and folds in half by pushing down on the trigger guard, making transport and storage easy for any situation. Chiappa's X-Caliber 12ga or 20ga Adapter Sets are perfect for use with the Chiappa M6.

X-CALIBER

28

USE YOUR SHOTGUN AS A RIFLE

With the X-Caliber Adapter Set, a 12ga shotgun can shoot up to twelve difference cartridges and a 20ga shotgun can shoot up to eight! These adapter sets are a multi-caliber, multi-cartridge barrel insert system that allows shooting the most popular centerfire pistol cartridges through **any break-open action 12ga. or 20ga. shotgun**. Each insert is essentially a premium quality pistol barrel machined from steel and contoured to fit into the shotgun chamber. Once inserted, the cartridge for that insert can be chambered and fired in the shotgun in the same manner as the shotshell. X-Caliber inserts can be installed and removed without tools or any modification to the shotgun. Inserts available for 12ga. shotguns include .380acp, 9mm Luger, .38spl/.357mag, 40S&W, .44mag, .45acp, 410ga/45Colt and 20ga. Inserts for 20ga. shotguns include 9mm Luger, .38spl/.357mag, .45acp and 410ga/45Colt. Inserts are sold as a complete set or can be purchased separately. The X-Caliber inserts add unparalleled versatility to any 12ga. or 20ga. break-open shotgun. When paired with the Chiappa M6 combination gun, change to it becomes the ultimate survival firearm.

M1-22

30

Chiappa's M1-22 creates the look and feel of the venerable USGI M1 Carbine but chambered in the inexpensive and easy to shoot .22lr. A great .22 rimfire rifle in its own right, the M1-22 has the same overall dimensions as the original adding the fun and attractiveness of this carbine. Available in either wood or polymer, the stocks are interchangeable with genuine M1 Carbines. The trigger group and safety also are patterned after the original and look and function in the same manner. Like the original, the M1-22 has a sliding rear sight and winged front sight, as well as a dovetail machined on top of the front and rear receiver rings. Each M1-22 comes with two 10 round magazines.

Modeled after one of America's great military arms, the USGI M1 Carbine, the M1-9 is nostalgic, fun and practical. This handy, easy to shoot rifle has the same overall dimensions, trigger groups design and sights as the original, but is chambered in the affordable and readily available 9mm Luger. The receiver has a dovetail machined on top of the front and rear receiver rings. The straight blowback design makes the M1-9 ultra-reliable and easy to clean and maintain. Cartridges are fed from standard Beretta® 92 style magazines with two 10 round magazines included with each M1-9.

AR rifles are easy to handle and fun to shoot. The mfour-22 captures the best features and attributes of the AR platform but chambered in .22lr. A near identical replica of a M4 carbine, the Chiappa mfour-22 is perfect for inexpensive plinking, practice or for training at ranges where centerfire rifle cartridges are not allowed. mfour-22 rifles come with flat top Picatinny rail, A2 style front sight post and 16" barrel.

Most parts are MIL-SPEC

1887 SHOTGUN

36

Designed by John M. Browning for the Winchester Repeating Arms Company, the 1887 lever action shotgun is considered to be the first successful repeating shotgun. The Chiappa Firearms' 1887 is a faithful reproduction of this classic firearm. The 1887 utilizes the design of the original solid lever that includes an innovative internal safety. Featuring a European walnut stock and forearm and color case finished receivers, the 1887 is as beautiful as it is functional. Each shotgun comes with a bead front sight and three choke tubes (Mare's Leg and T Model have a fixed modified choke).

1892 RIFLE

38

The Winchester 1892 is one of the historical rifles that made the lever action a favorite firearm of the American Old West. Designed by none other than John M. Browning, the Chiappa Firearms' 1892 is a true reproduction, with all parts being interchangeable with an original 1892. Metal parts are precision made on modern CNC equipment, while the beautiful wood stocks are hand finished and crafted for a perfect metal to wood fit. Chiappa manufactures models to suit anyone's need; from the classic 1892 Takedown Rifle with an octagonal barrel to the modern performance oriented, hard chromed 1892 Alaskan, to the Mare's Leg made famous by Hollywood.

1892 MARE'S LEG®

40

Introduced in 1958 by the Hollywood western TV series *Wanted: Dead or Alive*, the Mare's Leg version of the 1892 has captured the imagination and desire of fans and shooters alike ever since. The Mare's Leg® is built from ground up as a lever action handgun with a pistol grip length stock and pistol length barrel. Used by Steve McQueen's character, the bounty hunter Josh Randall to capture or kill movie screen bad guys, the Mare's Leg® is a fun and unique shooting experience. Available with either a 9" or 12" barrel and large lever loops, the Mare's Leg® is available in the classic 44/40 and 45Colt chamberings as well as the contemporary .357mag and .44mag.

1886 RIFLE

42

Nothing says classic stopping power and performance like a lever action .45-70 Gov't, and nothing says this better than a Model 1886. Chiappa Firearms keep the performance and nostalgia alive and well with their accurate reproduction of the classic John M. Browning design. Chiappa's 1886 is available in various models and configurations. For nostalgic hunting or cowboy type shooting, the 1886 Classic Carbine or Standard Rifle are perfect with their traditional finishes and stocks. For modern, hard hitting performance, the Kodiak with its durable hard chrome coating and Soft Touch finish are perfect for hunting in adverse weather and conditions. The Model 1886 family are all chambered in .45-70 Gov't.

1886 TAKEDOWN

44

The Chiappa Firearms 1886 Takedown is one of the most sought after configurations for this classic lever action. The forend and barrel are easily separated from the action and buttstock for easy transport and storage, making it one of the most compact, powerful rifles available. Combining old and new, the Ridge Runner features a quick handling 18.5" barrel, Skinner peep rear sight, Fiber Optic front sight, and a forward mounted Picatinny rail for a scout scope or red dot type sight. The 1886 TD Classic captures the timeless appeal of this venerable design, featuring a 26" barrel, full length magazine tube, beautifully finished wood stock and a color case finished receiver.

SPENCER

46

Designed by Christopher Miner Spencer, the Spencer rifle gained fame after being adopted by the Union Army during the American Civil War. A manually operated lever action fed from a tube magazine in the buttstock, the Spencer rifle was a vast improvement over the muzzleloading rifles being used during the war. Chiappa Firearms reproduction is manufactured from precision CNC parts precisely joined to beautiful, hand oiled walnut stocks. Color case finish receivers are joined to precision rifle barrels with a blued finish. Chiappa Firearms makes Spencer rifles in the original 56/50 or in the more easily obtained 45Colt.

SHARPS

48

The Sharps is an iconic rifle made famous on the plains and high deserts of the American West and in Hollywood. Chiappa Firearms' Sharps rifles capture the true craftsmanship and nostalgia of the original design with modern manufacturing. All metal parts are CNC machined for precision performance and target grade accuracy. The color case finished receivers are mated to classic octagonal barrels. Beautiful walnut stocks are finished and fit by hand to each barreled action by craftsman for true custom rifle performance, appearance and quality. The Sporting and Business models feature octagonal barrels and double set triggers while the Infantry, Cavalry and Carbine models feature round barrels and single triggers. Sharps rifles are available in .45-70 Gov't, 50-70 and .54cal. single triggers. Sharps rifles are available in .45-70 Gov't, 50-70 and .54cal.

MUZZLELOADER

50

American Civil War reenactors or history enthusiasts can now own accurate, faithful reproductions of some of the most famous arms used in conflict between the Union and Confederacy. All of the Chiappa Firearms' muzzleloaders pay attention to historical details such as barrel bands, ramrods and sights, with hand oiled walnut stocks. The 1842 Musket, originally manufactured in Springfield and Harpers Ferry, and the 1861 Springfield have barrel and locks in a white finish. The 1853 Enfield Musket and 1863 Zouave have a blued barrel and color case locks.

The New FAS 6007 .22lr semiautomatic target pistol was developed in collaboration with Olympic shooters to significantly contribute to accuracy and handling during competitions. To optimize ergonomics, this pistol has many adjustable parts which can be precisely fit to the shooter for maximum balance, stability and control. The magazine is centrally located and inserted into the grip. Thanks to this magazine configuration the FAS 6007 has superior handling characteristics and the longest barrel possible for excellent accuracy and velocity.

Features:

- A - Rear sight with adjustable window
- B - Shock Buffer
- C - Magazine in the central area of the gun
- D - Two position front sight
- E - Trigger group easy to change and set
- F - Setting of pre-run of the trigger
- G - Setting of the weight of trigger spring
- H - Adjustable trigger position
- I - Hammer group easy to change and set
- L - Setting of the angle of the gun/grip with 3 set screws
- M - Set screw for weight of hammer can be from outside
- N - Set screw for hammer can be reached from outside
- O - Modular weights to fit on rails on both sides
